Why choose Ace E-Z Rider?

- For 45 years, Ace Manufacturing & Parts Company has been supplying clutch assemblies and components worldwide.
- **Reduced cost:** E-Z Rider clutches are priced nearly \$100 lower than the most popular O.E.M. clutch.
- **No cores to handle:** Because we are the manufacturer, we supply all new parts and assemblies made and assembled at our plant in Sullivan, Missouri.
- **Shipping Policy:** We strive to ship all orders entered before 1:00 PM the same day.
- **Freight Policy:** 4, 8 or 16 clutches, mixed or matched, will be shipped freight pre-paid or an allowance can be made for customer arranged pick-up.
- **Mack Application:** As part of the E-Z Rider series clutch line, we offer EZ108935-51 and the heavier version EZ108935-51H. New 9 spring clutches have typically been reserved by the dealers.
- **Warranty:** For 12 Months and unlimited mileage, Ace clutches are warranted to be free of defects in material and workmanship.

- Friction Material: Ace Manufacturing is the only clutch manufacturer in the U.S.A. that produces the friction material used in their clutches.
- Fiber Brake Spacer: Shipped free of charge in every new Ace clutch. The spacer is essential to achieving brake squeeze where the flywheel has been resurfaced.
- Training and Fieldwork: As an added service, Ace will provide training and troubleshooting free of charge.
- Dual Adjust: Ace clutches incorporate E-Z adjust feature, as well as the manual adjust.
- Disc Springs: Every Ace clutch is shipped with disc that have premium, chrome silicon, valve quality, and cryogenically treated springs. A patented process exclusive to Ace.
- State-of-the-Art Assembly: Unlike the competition, every Ace clutch is shipped as a “serialized” matched unit. Our 15.5” units go through a series of lasers and load cells, where measurements are taken and digitally recorded to the specific serial number assigned.
- Ace E-Z Rider series clutch units are used by many nationwide carriers, such as Yellow, Roadway, National Lease, U.P.S., Pam Transport, Waste Management, Celedon, and numerous other carriers.
